Hi all -

I've revised the reframing risk paper, based on our conversations on 7/27. Thanks to Kacee and Laura for already sharing comments and edits, which are included in the attached.

I've shifted the focus from risk assessment to public health, although the risk assessment component is definitely still included. I'm also including a draft figure for what I'm thinking of as a starting point for Fig 1 in the document (which needs to be more fleshed out), as well as some draft AOP figures Wayne put together for the public health illustrative example.

Please send comments and edits to all via email by COB August 18th. I can compile before our next meeting which I've just scheduled for Monday August 22nd at 4pm.

Thanks,

Maureen
